Honorable Chairs, Fellow Delegates, and Esteemed Guests

The delegate of the DPRK is honored to be here today to make resolutions and establish peace between fellow countries to allow for a better world. As all other delegates know, the issues presented today and the following days of debate are of great importance and interest. The delegation of the DPRK would like to express its support of the protection, return and restitution of Cultural heritage, seeing as it helps remind countries of past success and motivate them for the future. Furthermore, the DPRK proclaims support for the use of authority as a method to safeguard civilians and maintain peace as it is a much more efficient and effective way to assure peace. In addition, the delegate of the DPRK recognizes the issue of promoting and prolonging regional ceasefires during a global crisis and communicates that they do not agree, but support other countries if they wish to take part. The delegation of DPRK is too often seen to have strong opinions with little reason or backing behind their ideas. In the following days the delegation would like to represent that this idea is incorrect and that the DPRK's ideas are valid and well thought out. Thank you.
